

## You May Be Leaving A Lot Of Money On The Table!

If you are an ISO, an agent, sub agent or a credit card service provider, you may be overlooking the fact that your merchants need much more than just a MID to run their Business. Unfortunately you are probably not sharing in those revenues, **WE CAN CHANGE THAT!**

If you are a traditional merchant services provider you are probably running a business which is much like an ice-cream store that sells ONLY chocolate, vanilla and strawberry but your merchants need thirty-one flavors to run their business.

Genie Gateway is a unified solutions company, blending products and services needed to operate a business, traditionally purchased from several vendors, into one seamless global service, our service is aimed squarely at both low risk and high risk merchants, who want a fully rounded presence on the internet, and by phone, without the cost and complexity of the build-it-yourself approach.

Genie Gateway is an interactive multimedia communications hub, featuring a digital buffet of unified solutions; combining the benefits of having a website fully accessible from any internet enabled device, with a personalized online store for each merchant, a shopping cart with member-to-member payments online, voice, text messaging, video, document messaging, virtual fax, group communications between merchants and their customers, plus the most robust Virtual Office, as one unified solution. Attached are two links to short videos to tell you more.
