### Genie Gateway Implemented the Next Step to Pay P2P

Genie Gateway (OTC: GGWY) announced that the company implemented its next step for Pay P2P, (Peer-to-Peer Payments). Pay P2P makes cash, checks, and credit card payments obsolete. It's easier, and in many ways more secure, than carrying money in your wallet or purse. With P2P Payments buyers NO longer need to provide their credit card, or bank account information, to make a payment. Repeat customers ONLY need to enter their cell or Genie number, and "**Click to OK**" their purchase, when they receive a text message asking for their approval.

Thomas E. Skala, Genie Gateway's CEO said "P2P payments have been around since the early 2000s but did not establish a strong foothold until recently. Part of this had to do with the ease of use, especially with the explosion of smartphone and all other internet enabled devices. Genie Gateway provides P2P solutions anytime with a simple click on the Pay-P2P icon on all internet enabled devices."

"Pay P2P enables any Genie subscriber to P2P their payments, from any internet enabled device, anytime. To P2P subscribers can click on the P2P icon on any Genie Gateway, they can also download an APP, merchants can cut and paste the P2P icon to their own website, shopping cart, or monthly statements. P2P Payments are processed in real-time, and the merchant's CashBox will be credited immediately with each payment." explained Mark Newgreen, Genie Gateway's CFO.

"Genie CashBox subscribers can send and receive P2P payments to and from all other Genie Subscribers using their cell phone. Simply visit the **Google Play Store to download the Genie Gateway APP**" stated Stuart Scamman, Genie Gateway CTO.

Tom Nix, President of Summit Digital, Genie Gateway's cable TV subsidiary, explained that "the P2P on TV is a model where consumers can utilize a **one click method**, with their TV Remote Control, to send a payment to any other subscriber".

Randall Skala, Genie Gateway, COO said "To P2P on the cell you need to be a current Genie CashBox, subscriber, your CashBox must have a sufficient balance to cover any payment you send via P2P and you will need the cell phone or Genie Number of the recipient of your payment. To watch the P2P User Guide video; click on the following link - <http://www.GGWY.Info/PayP2P>".
