

High Risk Merchants now have three options to verify their payments with Check22.

1. **Full Bank Account Verification** online verification with the issuing bank to verify the ownership of the specific bank account on which the Check22 is drawn. This verification includes the ownership of the account, and that the account is in good standing, and that there are sufficient funds in the account to cover the amount of the subject Check22.
2. **Text Message Authorization** confirming with the check writer that they authorized the issuance of the subject Check22. This service does not include the bank account verification service.
3. **NO Verification**, the merchant provides their customer's name, address, email address, and cell phone number, a Check 21 is created immediately and emailed to the merchant for their processing. With this service the check writer is not contacted, permission is assumed based on the merchant's relationship with their customer. This service does not include bank account verification or text message authorization.

A screenshot of a payment verification interface. It features a dark blue background. At the top, there is a white text input field labeled 'Enter Cell Phone or GenieCard:'. Below the input field is a purple 'Continue' button. To the right of the button are three radio button options: 'Use Bank Account Verification.', 'Use Text Message Authorization.', and 'NO Verification.'.

Genie Gateway Provides a New Payment Processing Services for Call Centers, Telephone and Online Merchants

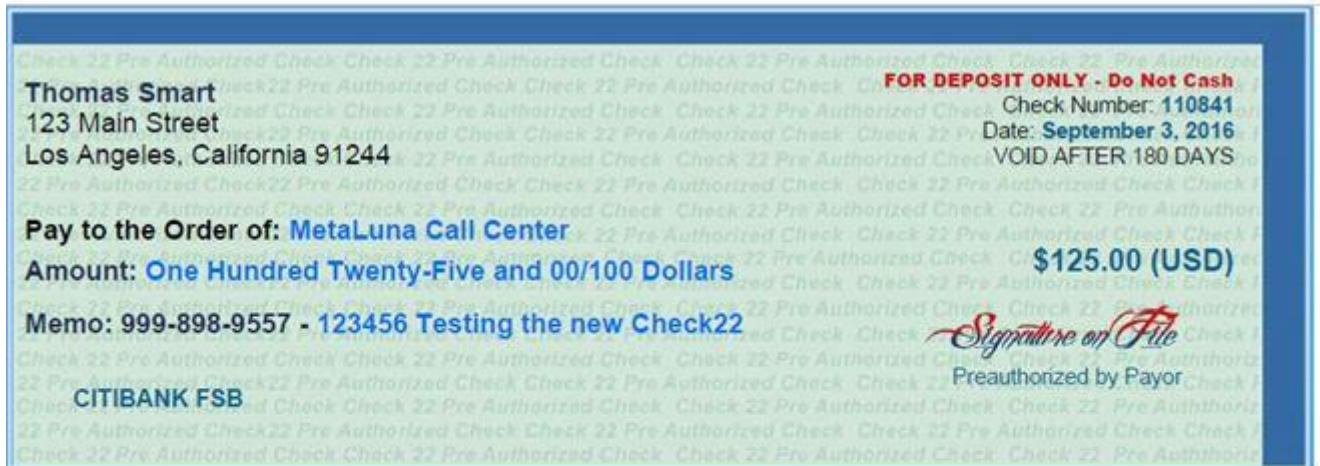

Check22 is the new way for Call Centers and Online Merchants to process payments for goods and services, in Real-Time, 24x7x365, whether in person, online, or by phone.

Avoid the hassle and risk associated with credit card processing! Our Merchants can receive payments within five minutes, from any customer who has a valid checking account at any bank in the U.S.

Here's a very quick overview:

- Activate your Merchant's Processing Account in just 15 minutes: <https://GenieCashBox.com/BusinessAccount>
- Merchants receive their payments within 5 minutes.
- Save on processing fees.
- Merchants Get Paid for the full amount billed: our low processing fees are billed separately.
- Process payments one at the time or in a "Batch Process" of up to thousands of payments at a time.
- Reduce the Chargeback and Dispute periods from 6 months to 40 days.
- **NO reserves and NO personal guarantees are required.**
